## Signs That You Need to Replace Your Windows

---

Check for one or more of these obvious [signs that it's time to replace windows](#) at your home in American Fork Utah:

1. The windows don't work properly. You have difficulties opening, closing, or locking the window, requiring high repair costs.

2. The windows are falling apart. They're split, cracked, warped, or coming apart at the corners.
3. The structural design is outdated. Newer designs are available with greater functionality and durability.
4. Your home is drafty and uncomfortable. You've determined that you need more energy-efficient windows.
5. Your monthly electricity bills are too high. Your HVAC system is working too hard due to drafts from windows.
6. The windows are bad for the property value. The windows are eyesores, with rotting, loose, or worn frames.

## Window Replacement Cost

Window replacement costs vary widely based on the style, materials, manufacturer, energy-efficiency features, and sometimes the quantity you purchase. Additionally, window installation costs are based on the amount of work required to prepare the wall

and raw opening for the installation.

The installation cost depends on the existing wall construction and the window size and configuration. The financial benefits of replacing old windows and doors with energy-efficient models typically outweigh the upfront cost of cutting energy bills and increasing property resale value.

## How to Choose a Window Contractor?

---

Energy-efficient replacement windows should be professionally installed to ensure their long-term high performance. We can help you make sure you receive top-quality installation. Here are some general guidelines for selecting high-quality window replacement services:

1. Look for a high-quality window selection. Make sure the company offers an excellent selection of replacement windows that meet your specific needs.
2. Check their status. Do a web search for customer reviews and check the company's BBB report.
3. Make sure they're fully insured. Ask for documentation of coverage, including property liability and Workers' Compensation.
4. Ask for references. Get referrals from *local* customers with contact numbers.
5. Choose a contractor with a strong warranty. This provides you with added financial protection.

**If you are looking for replacement windows in the local area, then Advanced Window Products is here to help you.**
