What Are the Signs that a Window Replacement is Needed?

There are a few signs that you might need replacement windows in Syracuse UT. A few of the common signs that we see include:

- You have recently been through a severe storm, including winter storms in Utah, and your property has suffered serious damage
- You are noticing there is a draft going through your home
- Your electric bills are climbing and you might not know why
- You have broken windows

- You are trying to renovate your home before you put it on the market
- You own a historical home and want to preserve it

If any of these points describe your windows, then give us a call today!

What Our Customers in Syracuse, Utah are Saying

Great experience all around from purchase to installation. Low pressure sales and he actually advised when not to add in certain types of doors. The installation crew was awesome and incredibly fast. The best part for me was they obviously had a new guy on the crew who had tons of questions. One of the Sr installers was patient with him and helped him learn as they were putting in a big complex window.

Todd was so helpful and knowledgeable on the phone when I called, and knew exactly what I wanted. He got back to me efficiently and with the right information. Thank you Todd for the great customer service and steering me in the right direction. I would definitely recommend this company. Honest people and a great value.

We had all new windows replaced in our home this summer. Everyone from the salesperson Rob, to the installers and the customer service in the office have all been so helpful. We knew in advance that the windows would take about 2 months to make and they were. But once ready did not take long to have them installed in one day. We love our new windows and would highly recommend. [REDACTED]

We ordered new window's for the entire home. From start to finish the service we received was excellent. Everyone was very nice and professional. We felt very comfortable with the installers being in our home. It has been about six months now and we love the windows. They have improved the look of our home inside and out. Our home stays cool when it is warm, and warm when it is cool. We highly recommend this company. [REDACTED]

I must say, that during my tenure of perusing, shopping, and installing windows, AWP has been hands down, bar-none the most helpful, and thorough throughout this experience. You can tell that quality, honesty, and integrity are key axioms in which they choose to due business under. With that said, you have a customer for life. Thank you for all you do AWP! [REDACTED]

Ken Jankowski was my Salesman. I had heard commercials for Advanced windows and as a Realtor for over 17 years I see what type of windows fail over just a few years that the newer and most of the large builders use. CHEAP! I wanted quality windows with a warranty against a failed seal, or blemishes and that looked good and solid. Ken showed me the windows, and explained his lifetime warranty..... I have used the warranty twice.... No issues no hassle. They came out and fixed a scraped piece of vinyl. Also after the installation the screen guy said that one of the screens was not right.... I didn't see it but he did and the next week installed a new one. I cannot say enough good things about this company. Thanks for being so honest and professional in every step of the way.

We are finishing replacing our windows using Advanced. They replaced some of them a few years ago. Ken is very professional and we like that we are supporting a Utah company. The windows are also the best we could find as well. Would recommend to anyone.

Marissa Burns

Advanced windows replaced most of our windows 10+ years ago.. they have honored their guarantee throughout the years. We had the rest of our windows recently replaced, again, they continued to be a great experience! Ken, John and the phone staff were

polite and professional. Thank You Advanced

Updated review:After playing phone tag with Ken, we were able to setup a time for a quote. Product looks great and Ken is a nice salesman. After a little hiccup at the beginning with communication, I was happy to see them work so hard to make an appointment to give a bid. I will more than likely be purchasing windows through them. As mentioned, their product looks great and they look to have many benefits when buying through them. Ken even explained the process of wrapping the original wood exterior so there would be no need to paint and maintain (house is an old '50s style with original wood and brick exterior). I did appreciate him taking the time to explain that process.Thanks for the work on reaching out and fitting in a time to swing by to bid out these old, wood windows.Well, I was ready to buy windows and placed an inquiry on their website. Received a call the next business day, even got a text message. I missed the call because I was in meetings for work. I even replied to the text message. I called back the next day and haven't heard back. I suppose they must have enough business since they clearly don't want mine

I bought windows from Darren at advanced windows, I couldn't be happier with the price, and the way they turned out, I can really tell a difference. I would highly recommend advance windows to everyone.

Advanced Window was so great to work with! They were super responsive for me and even texted me back when I asked if the lead test was going to cost me (which it didn't). I also loved how much they respected social distancing and wore masks during COVID.

Very professional!

Darrin came out to give me a quote and was AMAZING!!! I was recommended to him from my cousin who had her windows done and spoke very highly of every person who came to her house, but Darrin made the biggest impression and I can see why. Great service, was on time, very professional, and gave it to me straight of what is needed in my house - and at a great price! Thanks Darrin!!!

Advanced Window Products was absolutely wonderful from start to finish. Darin came out and gave us our estimate. He was respectful of our budget and answered all our questions about the difference in window options, financing, and different rebates available. It took 5 weeks between ordering and the installation. Chris and Trent came and installed our windows. They worked quickly and efficiently. They cleaned up after themselves and made sure the window looked great! I'm very impressed with Advanced

and would recommend them any day. [REDACTED]

We couldn't be more pleased with our interaction with the personnel at Advanced Windows. From the salesman (Todd) to the two installers John & Dale. Both installers arrived on time gave us an advance call to let us know they were on the way. The installation was excellent especially the wrap they installed around our front windows. When the job was done everything was cleaned up. They also knew their products and were excellent representatives of their company. They also were very careful to observe social distance with the virus guidelines. Very pleased with all 12 windows. [REDACTED]

Advanced Window Products were amazing to work with! Not only were they professional, on time, and efficient, but they made me feel comfortable and helped explain the whole process to me! The quality of the window is amazing and we could tell a difference instantly after it was installed. We will definitely be using them again in the future! [REDACTED]

I priced around and felt Advanced by far had the better price and quality. The price was so good that I did all 14 windows instead of the 10 I had originally planned. The salesman was punctual and friendly he explained things well. The same with the installers. They were on time and worked quickly very nice people. I would strongly

recommend them. [REDACTED]

During the whole process from the initial call, to the quote, to the measurements, to the installation, to financing Advanced Windows staff was so helpful and professional! They also had the best price (by far) of any of the window companies I contacted, the quality of the product is amazing, and I love that they manufacture the windows in Utah in an environmentally friendly facility! If I ever need windows again, Advanced will be my first call! [REDACTED]

We had quotes from five other companies before we went with Advanced. They had the best quality windows, pricing, warranties, and rebates. They replaced all of our upstairs windows and they look awesome! We had some really cold weather when they were put in so some of the caulking cracked. We called them and they came back and recaulked without a problem. We will definitely be using them again! [REDACTED]

Jenny Hamson

We loved Advanced Windows. We had them do a sliding door for us a few years back and now they are replacing all our windows. They are well constructed sturdy windows! They are very professional to work with without being overbearing or pushy. Ask for Ken! He is so easy to work with. [REDACTED]
