## Signs You Need A Window Replacement

At Advanced Window Products of Saratoga Springs UT, we've seen how property owners have wasted money on high energy bills, endured drafty and uncomfortable interiors, or have lost money when selling a home due to poor quality or damaged windows. New replacement windows increase your home's value, and when you choose energy efficient vinyl windows, over the years you can get a return on your investment.

Here are the 5 signs that your home in Saratoga Springs Utah could benefit from a quality, energy efficient vinyl window replacement:

- ***Cold drafts*** - Can indicate the window seals are worn and allowing cold air to enter the home. This means your heating system has to work harder to keep your house warm.
- ***Faulty windows*** - If your windows are aging, the frames can become warped or damaged which makes windows difficult to open or close.
- ***Moldy or discolored*** - Window frames or panes that look bad due to the long-term effects of decaying biological materials like leaves, food, mold, or mildew/.
- ***Window condensation*** - When windows sweat, it is a sign that the window assembly is failing including the windows' glazing, insulated space, or seals
- ***Cracked or damaged frames*** - Softwood or noticeable rotting window frames or failure anywhere around the window pane due to age or pest infestation

Any of these window replacement signs can indicate that your family's health and comfort, or your home's operating efficiency is being compromised due to old windows, or windows that are faulty or were of low quality when first installed.

## What Our Customers in Saratoga Springs, Utah are Saying

---

## Window Replacement Styles We Offer

---

When choosing your window replacements for each opening in the home, you may want to consider mixing and matching window styles to increase the visual excitement and curb appeal of the home. Advanced Window Products can offer these popular window styles to Saratoga Springs, Utah homeowners:

- Single Hung and Double Hung
- Bay Windows and Bow Windows
- Arched and Awning Windows
- Tilt and Turn Windows
- Picture Windows
- Custom Shapes

Next, you want to choose the best window material and/or window system that fits your local climate, your replacement window budget, and your home's architectural style. At Advanced Window Products we suggest high-quality vinyl windows because they are available in a wide range of options, are very durable yet affordable, and vinyl replacement windows can help lower your energy costs because they keep heat in during winter and out during summer.

For added savings on your energy bills, choose energy-efficient vinyl windows that are designed as a complete system to insulate during the winter and prevent solar heating in the summer.

## **Why Choose Advanced Window Products**

---

Advanced Window Products makes it easy to upgrade your home's windows with our no down payment, no interest financing for 24 months (2 years). Also, we can offer every homeowner \$2000 off their replacement window installation when they purchase 10 or more windows.

We manufacture our own energy-efficient products and sell them factory-direct to you, the customer. This means you don't have to worry about middle-man and distributor mark-ups. Advanced Window Products is proud to be a Green business, and we support the Utah Make A Wish Foundation, Habitat for Humanity, and are a part of Buy Local First Utah.
