- Manufacturer
- Window installation costs
- Quantity of windows purchased

What to Look for in a Window Contractor

Your window manufacturer should supply top-quality energy-efficient windows. The company should provide superior quality window installation by their factory-trained team. When choosing your window contractor, remember:

- Choose the best manufacturer for replacement windows that meet your specific needs and use their team to install windows in your home.
- Require the contractor to show you the certificate of property liability insurance coverage and Workers' Compensation coverage.
- Read customer referrals online, and ask the manufacturer for several local references for customers who are willing to talk about their experience.
- Check the company's Better Business Bureau report information for unusual numbers and complaints.
- Confirm that the company's warranty offers excellent protection for its customers.
- Advanced for Quality Windows and Doors

Advanced Window Products provides a great range of window replacement options. Take advantage of our factory-direct pricing. Our factory-trained installers perform window installation for all our customers in Heber, UT.
