## Types of Windows We Install

---

Our energy efficient windows are offered with many glass options and in many styles including:

---

## Signs Windows Need Replacement

---

There are many factors that contribute to the deterioration of your windows. These include but are not limited to the age of the windows, the type of windows, and the weather conditions of the area. To help you out, here are a few tell-tale signs your windows are due for replacement.

1. A **significant increase in your energy bill**. This is caused by your air condition or heater over performing more than they should due to reduced insulation.
2. **Visible damage** such as leaks, decayed frames, chipping, and broken glass.
3. **Difficulty in opening** or closing the windows.
4. Cold or hot **drafts coming through** around the window.
5. You are **hearing noise from the outside when your windows are closed** . This means that your windows are failing at their task of soundproofing.

---

## Window Replacement Process

---

1. **Contact Us:** You can call us at (801) 505-9622 or come over to our showroom in downtown Salt Lake City to get for a candid consultation about your window replacement with one of our agents.
2. **Select Your Window Options:** You are spoiled for choice when you hire us to do your window replacement. We offer four window lines that come in various colors and functionality, and every window is custom built to suit the specific needs of your home.

3. **Window Installation:** After deciding on the type of new windows you want to be replaced in your home, we come in and do what we are best known for. All our **installers are lead-safe certified**, and our work is 100% satisfaction guaranteed. This dedication in our craftsmanship is what has got us our A rating with the BBB and the title of **Utah's #1 Window Company**.
